

There are no winners or losers to this game!

It's all about getting to know one another and discovering our shared love for the places we call home.

Delegate someone with a watch to be the time keeper.

The first person picks a conversation prompt card from the pile and has 1 minute to share a story inspired by the prompt without interruption. Put a numbered sticker on the map to identify the story's location. Speak your truth! Listen with an open mind and open heart. When you respond or ask questions, add value and keep it constructive. The person to their left jots down the essence of the story.
